

# Solutions

Have an interactive calendar that allows students to design and not make them think they're looking at something boring.

Domonick

# Motivation

Point system

Domonick

Daily Reminders giving students a little push to get their work done or get to where they need to be

Domonick

Online Giftshop using points

Domonick

ability to write down personal goals and give preset goals to show them what can be worked towards

Domonick

Online pet system something like a tomagachi

Domonick

show what needs to be done and whats already done

Domonick

Mention cool events that students can go to if something is done prior to the event

Domonick

show students events going on and what they can do around campus

Domonick

leveling up system, and leveling up rewards

Domonick

# Challenges

Lack of student engagement

Domonick

lack of advertisement to push out app

Domonick

lack of motivation outside whats provided

Domonick

lack of willingness to give the app a try believing it doesn't operate the way they believe

Domonick

universities unwilling to reach out and help their students

Domonick

# Long term impact

Working with schools

Domonick

students adjusting faster

Domonick

students finding events around campus easier and finding time to go to them

Domonick

students finding their groups because they're able to find clubs and events that interest them

Domonick

students not stressing too much about when work needs to be done and not finding time for themselves

Domonick

# Business Opportunities

working with universities and schools

Domonick

Advertisements

Domonick

business collabs with companies who make games or doordash and uber (give free doordash gift cards for rewards)

Domonick

Paid customization (not too much though)

Domonick

expand to working with big orgs to show when their events are being held instead of just schools.
